CLOSE-TO-NATURE FOREST SUSTAINABLE MANAGEMENT PRACTICES UNDER CLIMATE CHANGES

I sistemi selvicolturali che favoriscono la diversità genetica aumentano la capacità di adattamento delle foreste gestite ai cambiamenti climatici

Advanced landscape genomics

Biodiversità

Gestione forestale adattativa

Modello GenBioSilvi

3 Paesi europei

8 Specie forestali

13 Tipi forestali europei

20 Siti Natura 2000

30 Siti dimostrativi

3 European countries

8 Forest tree species

13 European forest types

20 Natura 2000 sites

30 Demonstration sites
